ELISpot/FluoroSpot Workshop

February 29, 2024

Hosted by:

Presented by:

Innovative Peptide Solutions

- Optimizing ELISpot performance for high reliability
- Preserving cell functionality
- Polyfunctional cell assessment with FluoroSpot (2-4 cytokine /antibody secretion patterns)
- Next-generation plate evaluation
- Assessment of cytokine amount secreted on single cell level
- A new class of serum validated for immune monitoring
- Peptide format innovation and stability
- Determining responses
- Key assay validation criteria

When & where:

11:45 AM – 2:15 PM / Feb 29, 2024

Leiden University Medical Center
J-01-116 / Conference Room – Route 554
Albinusdreef 2
2333 ZA Leiden / The Netherlands

Lunch / refreshments provided
