Innovative Peptide Solutions

- Optimizing Elispot performance for high reliability
- Preserving cell functionality
- Running polyfunctional assessment of cells with Fluorospot (dual, triple and quadruple cytokine/antibody secretion patterns)
- Next generation plate evaluation & Assessment of cytokine amount released on single cell level
- New class of serum validated for immune monitoring
- Innovative peptide and peptide pool formats, peptide stability and storage
- Determining responses
- Important considerations for assay qualification/validation

Refreshments will be provided
