Innovative Peptide Solutions

- Optimizing ELISpot/FluoroSpot performance for high reliability
- Preserving cell functionality
- Running polyfunctional assessment of cells with FluoroSpot (dual, triple and quadruple cytokine/antibody secretion patterns)
- Next generation plate reading & Assessing the analyte amount released by single cells
- New class of serum validated for immune monitoring
- Innovative peptide and peptide pool formats, peptide stability and storage
- Determining responses
- Important considerations for assay qualification/validation

*Refreshments will be provided*
